To the Citizen who was 
irritated about the flap 
about the name Black Sands,

I am sure that he isn't old 
enough to know, just how to public 
Blacks have been ridiculed by 
placers, ridiculed by Rings of 
who Blacken their faces. Rads 
shows that took on the Chancellors 
of the ingramant black people 
the Name Black Sands does 
nothing but encourage people 
to remember the days when 
Black was not a name to be 
pride of. We have lived through 
that era. We take pride
in our name and are displeased when it is used in connection with Black Sambo.
