

## *The Smith Houses at RESTON*

The Smith cluster of townhouses with its soft pastel colors and charming balconies is reminiscent of a quaint French fishing village. All homes have a clear view of Lake Anne, and lakeshore townhouses have private boating and swimming facilities. There is an infinite variety of styles and models. Architect Chloethiel Woodard Smith, F.A.I.A., has mixed sophisticated 2 bedroom gems with elegant 5 bedroom mansions. Different family needs and tastes are provided for with 2, 3, 4, and 5 bedrooms, libraries, studies, garages, two-story window views, bedrooms on a balcony and balconies off bedrooms, roof terraces, decks, multiple fireplaces, covered garden loggias that can serve as boathouses, unusual family room and master bedroom-terrace arrangements. The Smith Houses are a short block or so from the Village Center and the daily convenience of city life.
