Dear Ed:

We want to thank you on behalf of the Reston community for tackling and completing the difficult job of proposing a structure for the consolidated Reston Homeowners Association.

Your time frame was short, and the constraints many. Yet your product is a relevant and important foundation for the structuring of Reston's future institutions and for considering how Reston residents can relate to them.

We appreciate the great amount of time and just plain work that produced the Task Force report. You performed a very important function at an important and sensitive time.

Sincerely,

Gene S. Bergoffen, President
Reston Community Association

Robert M. Perce, Jr., President
First Homeowners Association

Michael J. Healy
Second Homeowners Association
