Dr. Royce Hanson
Director
Virginia Polytechnic Institute Extension
12100 Sunset Hills Road
Reston, Va. 220170

Dear Dr. Hanson:

I was happy to learn from Jim Grady that we shall have the pleasure of having you and Mrs. Hanson with us at the meeting of the Reston Philosophers at the De Long Bowman House Friday evening, January 14, 1972, and that you have consented to speak to us. We shall be greatly interested in hearing from you about the study of new communities and the work of the center which you head.

I am enclosing a little folder giving information about the Reston Philosophers Club, our members and our meetings in the past. The January meeting will be a special occasion in that it is our annual Ladies Night and members will be accompanied by their wives. After dinner, in the usual course, our guest speaker talks for about half an hour, then answers questions and joins in a general discussion. We meet at 7 P.M. and adjourn at 10:30.

We look forward with particular pleasure to having you and Mrs. Hanson with us.

Sincerely yours,

Chairman
The Reston Philosophers
