

RESTON BLACK FOCUS

July 14, 1972

Mr. Hendrick K. Sijgers  
1717 Wainwright Drive  
Reston, Virginia 22070

Dear Mr. Sijgers:

Transmitted herewith is a copy of the Reston Black Focus position paper presented at our meeting with the Reston Children's Center Board of Directors on July 6, 1972.

Several matters remain outstanding as a result of that meeting. Our understanding of these is as follows:

1. Mrs. Wade's Evaluation: The evaluation will be accomplished within a week subject to delay due to vacation schedules. Mrs. Wade is to be made aware of the contents of the evaluation upon completion.
2. Joint RBF/RCC Committee: Our initial involvement will be to function as a resource to your board in clarification of our recommendations made at the July 6, 1972 meeting. It is understood that the purpose and tenure of this committee will be limited to the recommendations at hand. We will await the RCC Board's letter requesting our participation and will respond at that time.
3. Sponsorship or Other Long Term Association: A long term commitment involving the resources of RBF cannot be made without presentation before the membership. To accomplish this, we will need a written proposal stating your needs, the level of involvement expected in people and/or dollars, and the privileges and responsibilities that accrue to our long term association.

Please contact me if I might assist further in clarifying our position.

Sincerely,

*Frederick A. Fresh*  
Steering Committee  
RESTON BLACK FOCUS
