Professor Boleslaw Malisz
Research Institute for Town Planning and Architecture
Warsaw, Poland

Dear Prof. Malisz:

I was so sorry that it was not possible for my husband to meet with you and that we did not get back to Warsaw in time for an additional conference with you. I read, with great interest, your papers on the physical planning of New Towns and have brought them back with me to show to the physical and economic planners here.

I am enclosing some material on Reston which I hope will be of interest to you.

Sincerely yours,

Carol R. Lubin
Community Planner
